Subject: Application for Information Technology Internship

Dear Hiring Manager,

I am applying for the **Information Technology Internship** at Roads Agency Limpopo (RAL). I hold a **Bachelor of Science in Information Technology from North-West University (2024)** and am eager to apply my academic knowledge while gaining valuable workplace exposure.

Through my studies and role as an **IT Student Assistant**, I built a solid foundation in **IT systems, databases, and networking**, while also assisting students with programming and troubleshooting tasks. This experience strengthened my problem-solving skills, adaptability, and ability to communicate technical concepts clearly.

I am a motivated and committed individual with a strong work ethic and a willingness to learn. I believe this internship will allow me to contribute meaningfully to RAL while further developing my professional skills in the IT field.

I have attached my CV, academic transcript, certified copies of my qualifications, matric certificate, and ID for your consideration. I look forward to the opportunity to contribute to your team and to learn from your experienced professionals.

Thank you for considering my application.

Yours faithfully,

Jackson Mahlotle Khuto
